Section 4. First aid measures

4.1. Description of first aid measures

General	In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.
Inhalation	Move victim to fresh air, administer artificial respiration if not breathing. Give oxygen if breathing is difficult. Trained people should give oxygen if breathing is difficult. Get medical attention.
Eyes	Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes keeping eyelids open. Seek medical attention.
Skin	Immediately flush skin with plenty of water, while removing contaminated clothing. Obtain medical attention. Launder clothing before reuse. Destroy contaminated shoes.
Ingestion	Seek medical attention immediately DO NOT induce vomiting. Rinse mouth with water. DO NOT administer anything by mouth to an unconscious person. DO NOT leave the victim unattended.

4.2. Most important symptoms and effects, both acute and delayed

Overview No specific symptom data available.
Treat symptomatically. Check section 2.2 (GHS Label Elements) for further details.

Inhalation

Section 5. Fire-fighting measures

5.1. Extinguishing media

Recommended extinguishing media; alcohol resistant foam, CO₂, powder, water spray.
Unsuitable extinguishing media: Do not use; water jet.

5.2. Special hazards arising from the substance or mixture

Lyse 1 (B):

Carbon oxides

Sulfur oxides

Combustible.

Development of hazardous combustion gases or vapors possible in the event of fire.

All the other components:

Hazardous decomposition: Not Defined

5.3. Advice for fire-fighters

As with all fires, wear positive pressure, self-contained breathing apparatus, (SCBA) with a full-face piece and protective clothing. People without respiratory protection should leave the area. Wear SCBA during clean-up immediately after fire. No smoking.

Use a water spray to cool exposed containers. Do not release runoff from fire control methods to sewers or waterways. Self-Contained Breathing Apparatus and protective clothing should be worn.

ERG Guide No. ----

Section 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Evacuation area.

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.2. Environmental precautions

Avoid contact of spilled material with soil and prevent runoff entering surface waterways.

6.3. Methods and material for containment and cleaning up

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

Section 7. Handling and storage

7.1. Precautions for safe handling

Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Take precautionary measures against static discharges. Ground and bond container and receiving equipment. Use non-sparking tools. Avoid breathing dust/fume/gas/mist/vapors/spray. Avoid contact with skin. Avoid contact with eyes. Observe good industrial hygiene practices. Use only in well-ventilated areas. Use personal protective equipment as required. Wash hands thoroughly after handling. Launder contaminated clothing before reuse. Avoid environmental contamination.

Check section 2.2 (GHS Label Elements) for further details. - [Prevention]

7.2. Conditions for safe storage, including any incompatibilities

Incompatible materials: Not Defined

Keep containers tightly closed when not in use. Store in a cool, dry, and well-ventilated area, away from heat, sparks, open flames, and oxidizing agents. Protect from freezing. If frozen, thaw without overheating and mix thoroughly before reuse.
